

Konftel 100 – makes the phone meeting simple and natural

Intelligent communications

Now you can meet – in spite of the distance and a pressing schedule. Konftel makes the phone meeting a viable alternative. An opportunity to bring people together, and a chance to hold spontaneous meetings and reach instant decisions. No matter how great the distance. Konftel is the conference phone for the new age, equipped with the unique technology OmniSound™ – optimal sound with the feeling of togetherness!

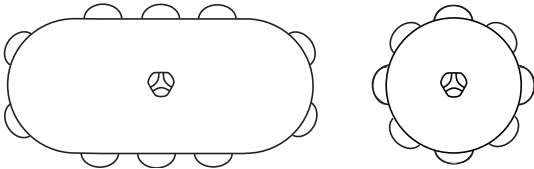

The Konftel 100 is the optimal conference phone for the smaller meeting room. It has exactly the functionality required for an effective and simply executed phone meeting. Konftel 100 creates the natural phone meeting – almost like meeting face to face!

- > Crystal clear sound – OmniSound™
- > Natural sound – in both directions (full duplex)
- > Simple to connect and use
- > For analogue line (PSTN)
- > Keypad with redial, R-button for multi-party calls, volume control and mute
- > Conference button for speed dialling
- > 2 year guarantee

It should be simple!

Konftel 100 makes your phone meetings simple and effective. Ideally suited to meeting rooms with its range of up to 30 m² (8 people). For optimum function, place the Konftel 100 in the middle of the conference table as illustrated below.

OmniSound™ – the crystal clear sound

Walk around your room quite freely, discussing and debating – with constant high sound quality. No irritating sound clipping, damping or echoes. The OmniSound™ technology produces natural sound in both directions (full duplex) as well as 360° sound pick-up and reproduction. An ultra-sensitive microphone provides omnidirectional sound pick-up and three built-in surround speakers fill the room.

The keypad on the Konftel 100 has volume control, a mute button, an R-button for multi-party calls and a button for manual calibration. In other words, the most important functions for your phone meetings. The Konftel 100 also has a special phone meeting button (CONF) for storage of the most frequently used number.

OPTIONAL
